We have some exceptional bull, heifer, and cow/calf combo prospects from our spring crop of calves. If you are interested in building your herd or adding cattle with more bone, more muscle, more natural thickness, and plenty of milk, give us a call and come visit our farm. These genetics will work successfully in your operation!

Genetics + Phenotypes + EPDs + DNA Profiling = High Quality Red Poll Cattle

President's Message

Greetings, fellow Red Poll enthusiasts! Following the recent national sale, I'm honored to announce that I've been reinstated onto the board and will proudly serve as your president for the upcoming year. Our primary objective as a breed is to ensure maximum calf registrations and prompt payment of service fees to propel the Association forward. Scribbling these words right after the successful national show at the North American, I'm thrilled to report that we showcased 26 exceptional head of cattle. The heifer and bull showproved to be intensely competitive, and my heartfelt congratulations go out to all participants. I eagerly anticipate guiding this exceptional breed forward. Should you have any inquiries or concerns, please don't hesitate to contact me. Thank you!

Remember When...

What is a good bull worth? A truly superior bull can be worth a fair bit of cash as George Shaffer discovered when GS Goodfellow 202403 led the sale and brought \$6500.00 at the 2000 North American. That price remains a record today.

The eye appeal of this bull earned blue ribbons in stock shows across the Southern Plains and at Red Poll events. Goodfellow's only defeat in the show ring was second place to a half sibling at the Houston Stock Show which was exported to Venezuela. In addition to prize winning eye appeal, Goodfellow came from generations of breeding for performance. Steve Scott kept Goodfellow as herd sire for many years because he was "trouble free." An easy calving bull, he made calving season a joy rather than a chore. His progeny succeeded as pounds on the hoof and as breeding stock. G and S Red Polls reputation for soundness, growth and reproductive performance sure paid off and remains an inspiration to breeders.

This snapshot of success at G and S Red Polls would be incomplete without mention of Sally Shaffer. Sally was a serious educator with a master's degree from Ball State who taught for 30 years along with raising a family. She loved to travel with George to shows and sales. Sally, along with George, was involved in the international Red Poll scene representing ARPA at the Red Poll congress in Australia and then as hosts when the world tour came to the U.S. Sarah J (Sally) Shaffer, 85 of Pittsburg TX passed into the arms of Jesus July 18, 2023 surrounded by family and friends at home.

Of course, Sally is missed tremendously. At age 87, George remains at the farm in Pittsburg TX. This year, he is finishing 5 steers for sale as beef cuts at a natural foods store in Longview. Grass finish beef and healthy foods has long been an interest in the Shaffer family. Readers can see his ad in this issue.

Red Poll BREEDERS' DIRECTORY

Producing milk and meat from grass and home grown grain and roughage is the job of this registered herd of Red Polls. Superior production consistently tops 300 pounds per cow with all cows being milked. D, J11A, and AR tested. Superior cattle produced bring top prices for breeding stock or salvage. This exceptional performance justifies the excellent meat and milk characteristics of Red Polls.
