If you like them long spined, level designed, and made as sound and smooth as can be, then check out B51 Bomber. This deep red, fast growing son of Parkstyle Bentley is made to travel, and is going to be able to follow after cows all day long, no matter the terrain. His mother is a daughter of Navigator out of our most productive cow families, going back to our original Red Poll cow from Leo Young. Anyone that has had cows from Leo knows they are hard working females! Longevity is bred into them. Bomber's mother is 11 years young this year and we just lost a sister to her that was 15! Bid with confidence.

This stout, growth-oriented bull will turn one year old October 15 and has been a fast-growing individual from the start. He continues to add frame and dimension while maintaining the muscle and substance needed to be a useful herd sire. His 3/4 sibling recorded the best hanging-weight percentage on our farm at an impressive 68%, adding confidence to the family's ability to produce cattle that perform on the rail. He offers good depth of body, a strong hip and hindquarter, and plenty of growth potential to continue developing with age. Perhaps his most valuable trait is his exceptional docility, making him a practical bull for any operation. With growth, structure, carcass potential, and a quiet disposition, this young sire is one we believe has a bright future in the breeding pasture. A BSE will take place before the sale and paperwork will be given to the new owner of this sire. Vaccinated with Merck Bovilis 20/20, Vision 7, Cydectin.

This heifer is out of a
 cow that goes back to
 the Parkstyle herd. Her
 mother has a great
 udder and is an easy
 keeper. This heifer has
 some eye appeal. She is
 sired by Roc the 2024
 National Champion bull.
