* Note that if the non-ARPA parent is registered in another breed, then list the organization and registration number as well as the breed(s) and animal's color.
* If the non-ARPA parent is partially Red Poll and one of its parents is a registered Red Poll, then indicate this parent's registration number and tattoo as a comment. This enables that parent to show up on the registration form pedigree.
* If both parents are ARPA registered, then the normal registration form can be used or the registration number and tattoo of one of the parents can be entered in the first set of columns of this form.

Signature of breeder signifies all information in this report is true. Signature: _____

Calving Ease Codes
